Survey Insights: AI-Powered Flashcard Generation

Overview of the Survey

The survey aimed to evaluate user habits, preferences, and feedback on the AI-powered flashcard generation tool. Responses from 27 participants were analyzed to gain insights into the adoption, usability, and potential improvements for the tool.

Key Findings

1. Usage and Familiarity

- **Frequency of Flashcard Use**:

  - **Occasionally**: 37%
  - **Rarely**: 48%
  - **Weekly/Daily**: 15%
  - Insight: Most users are casual flashcard users, emphasizing the need to simplify and streamline the creation process.

- **Experience with Flashcard Tools**:

  - **Used Anki or Similar Apps**: 67%
  - **Created Flashcards Manually**: 52%
  - Insight: A significant number of users are familiar with existing tools but find manual creation tedious.

---

2. Tool Features and Feedback

- **Valued Features**:

  - Difficulty level selection, tagging, and automatic content parsing were identified as the most valuable features by 85% of respondents.
  - Reversible cards were highlighted by 37%, showcasing interest in bi-directional learning.

- **Ease of Use**:

  - **Easy/Very Easy**: 67%
  - **Neutral**: 30%
  - Insight: Users appreciate the tool's simplicity but recommend further UI/UX improvements.

- **AI for Flashcard Generation**:

  - **Used Before**: 15%
  - **Not Used**: 85%
  - Insight: There is untapped potential to introduce users to AI-powered solutions.

---

3. Areas for Improvement

- **Feedback on Features**:

  - Filtering by topics/keywords rated as "Important/Very Important" by 78% of respondents.
  - Suggestions included better PDF compatibility (e.g., scanned PDFs) and enhanced UI design.

- **Overall Satisfaction**:

  - Likelihood to recommend:
    - **4 or 5 (Positive)**: 70%
    - Insight: Most users found the tool valuable and would recommend it.

Actionable Takeaways

1. **Enhance User Interface**: Incorporate feedback for a cleaner, more intuitive UI.
2. **Expand Features**: Support additional formats (scanned PDFs, images) and improve filtering capabilities.
3. **Educate Users**: Promote the benefits of AI-powered solutions for flashcard creation to those unfamiliar with the concept.
